

# Chief Executive Officer – Gibraltar Financial Services Commission

## Gibraltar

### £Competitive

Gibraltar is an international financial centre, wholly compliant with international standards and European Union directives. The other core economic drivers are tourism, shipping and remote gaming.

Gibraltar's financial services sector currently enjoys the ability to passport financial services across the European Union, and will leave the European Union simultaneously with the United Kingdom. Her Majesty's Government of Gibraltar and the United Kingdom Government have agreed for Gibraltar licensed firms to continue to have access to the United Kingdom market post Brexit and vice versa. Motor insurance companies based in Gibraltar have a c. 23% share of the United Kingdom motor market

The Gibraltar Financial Services Commission (GFSC) was established in 1989 to provide strong investor protection to its financial services sector. The mission is to provide financial services regulation effectively and efficiently in order to promote good business, protect the consumer and enhance Gibraltar's reputation as a quality international financial centre.

### The role:

The GFSC is seeking to appoint a Chief Executive who will lead a high performing, agile, and innovative regulator. The challenges ahead are matched by the opportunities. The Chief Executive will need to lead the team in designing and delivering strategic plans to ensure a thriving financial services environment. The appointee will need to be able to build strong engagement with all stakeholders, as well as:

- Drive the strategy and the day-to-day management of the organisation.
- Engage with regulated firms.
- Liaise closely with the Government of Gibraltar.
- Work with consumers and consumer groups.
- Work actively with the UK, EU and International Regulatory Authorities.

### The person:

This is an exciting, high-profile role requiring an experienced individual capable of managing the reputation of Gibraltar's finance industry at an international level. We are open minded about your current role and professional background but as a minimum you will bring:

- The ability to network at the most senior levels amongst financial services professionals, political representatives, regulators and other relevant bodies,
- Sound knowledge of the financial services industry, including its digital dimensions, as well as marketing and public relations skills.

- Excellent written and verbal communication skills.
- A strong strategic vision and the ability to understand broad industry and consumer needs.
